TO WHOMSOEVER IT MAY CONCERN

This is to certify that we have purchased Ambient Air Ozone Analyzer Model SIR S-5014 with accessories from M/s AlfaTech Services, Naraina, New Delhi in August 2008.

The instrument has been used regularly for ozone data generation and it has been performing quite well under different types of usage conditions. We have not faced any technical problem with the instrument so far. We are quite happy with the service support given by AlfaTech Services.
